

COMMUNICATION SKILLS

How we share ideas, understand each other, and talk to people — **and to AI.**

BY **PRABHAT SAHU**

WHAT IS COMMUNICATION?

“Communication is the process of sharing information, ideas and feelings between two or more people.”

In simple words: you send a message > someone receives it > they reply.

SENDER

who shares

MESSAGE

what is shared

RECEIVER

who gets it

FEEDBACK

the reply

THE COMMUNICATION CYCLE

The feedback travels back to the sender — and the cycle starts again. Communication only works when the loop is complete.

WHY COMMUNICATION MATTERS

01

TEAMWORK

Group projects and AI teams run smoothly when everyone speaks clearly.

02

EXAMS & INTERVIEWS

Clear answers mean better marks, and confidence in front of others.

03

FRIENDSHIP & RESPECT

People listen to you when you speak clearly and listen to them.

04

TALKING TO AI

A good prompt is communication too — the clearer you are, the better the answer.

TYPES OF COMMUNICATION

VERBAL

Spoken words — talking, phone calls, meetings.

NON-VERBAL

No words — gestures, face, body language.

WRITTEN

Emails, notes, letters, chat messages.
